1. Please revise your disclosure to explain the meaning or significance of the following terms at their first use in the prospectus.
 - peptides
 - lentiviral
 - neutropenia
 - Cytokine-Release Syndrome

Our Product Pipeline, page 2

2. We refer you to your TCR Therapeutic candidate table on page 2. Please revise your development stage marker to reflect that certain target indications are further or less developed than other target indications in their respective development stage. In this regard, we note the development stage marker is the same for MAGE A-10 TCR (breast or lung cancer) as AFP TCR even though the anticipated IND dates are 2015 and 2016, respectively. Please make any corresponding changes throughout the prospectus.

Risks Associated With Our Business, page 5

3. Please expand the bulleted list to include risks related to:
 - the unique risks and challenges related to development, approval and manufacture of a gene therapy product; and
 - the risks posed by the affiliation and shared ownership of intellectual property between Immunocore and the company and potential competition in developing pipeline products.

Implications of Being an Emerging Growth Company and a Foreign Private Issuer, page 6

4. Please revise your disclosure to explicitly indicate whether you will take advantage of the extended transition period provided in Securities Act Section 7(a)(2)(B) for complying with new or revised accounting standards. To the extent you elect not to take advantage of the extended transition period, disclose that your election is irrevocable. See Question 13 of the Jumpstart Our Business Startups Act Frequently Asked Questions.

5. Please revise your disclosure to discuss the meaning and significance of “fail-safe tracking.”

If product liability lawsuits are brought against us..., page 37

6. Please expand your discussion to disclose the amount of product liability insurance you carry. Also, for any other type of insurance coverage you maintain for other risks discussed in other risk factors, please quantify the amount of insurance you carry.

We have a shared development history with Immunocore Limited..., page 44

7. Please briefly describe and compare the biochemical operation of both soluble TCRs and cellular TCRs. Explain how therapeutic products employing soluble TCRs and cellular TCRs could differ including the indications for which they might be developed. Assuming the registrant develops products using cellular TCRs and Immunocore develops products using soluble TCRs, explain how their future pipelines and prospects could differ.

Use of Proceeds, page 64

8. Please revise your disclosure to provide your best reasonable estimate of the amount of proceeds that will be used for each purpose and how far in the pre-clinical or clinical developmental process you expect the amount of proceeds from this offering will enable you to reach for each of your therapeutic candidates:
- to advance and accelerate the clinical development of your MAGE A-10 therapeutic candidate;
 - to advance and accelerate the clinical development of your AFP TCR therapeutic candidate;
 - to further develop and enhance your manufacturing capabilities and secure a commercially viable manufacturing platform for all of your TCR therapeutic candidates; and

Please name the valuation firm and provide their consent as required by Rule 436 of the Securities Act Regulations.
